Summary

Summary

Motivated B.Tech student in Artificial Intelligence and Data Science with strong foundation in Python, Statistics, Machine Learning, and Data Analysis. Experienced in data preprocessing, feature engineering, predictive modeling, and data visualization using real-world datasets. Skilled in documenting technical workflows and collaborating in team-based projects. Seeking a Data Science Intern opportunity to contribute to analytics and machine learning solutions while learning from experienced mentors.

Education

B.Tech – Artificial Intelligence and Data Science

2023 – 2027

SRKR Engineering College, Bhimavaram

CGPA: 8.3 / 10

Experience

Data Science Intern — Cognifyz Technologies

May 2025 – Jun 2025

- Built Machine Learning models achieving **80% accuracy** for restaurant recommendation.
- Performed data preprocessing and feature engineering on **1000+ records**.
- Developed data visualizations using Matplotlib and Seaborn.
- Evaluated models and documented technical workflows.

Projects

Boston House Price Prediction System [Demo] [GitHub]

- Developed predictive model using Python and Scikit-learn.
- Performed Exploratory Data Analysis (EDA), feature engineering, and regression model evaluation.
- Built Linear Regression model and evaluated using regression metrics.
- Deployed Flask application on Render for real-time predictions.
- Tools: Python, Pandas, NumPy, Scikit-learn, Flask.

Skills

Programming: Python, Java, C, SQL

Data Science: Machine Learning, Statistics, Data Analysis, Data Preprocessing, Feature Engineering, Model Evaluation, Predictive Modeling

Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

Tools: Flask, Git, GitHub, Jupyter Notebook, Google Colab, VS Code, Render

Soft Skills: Problem Solving, Analytical Thinking, Teamwork, Communication, Documentation

Certifications & Achievements

- TCS National Qualifier Test (NQT) – Cognitive
- Data Science Internship – Cognifyz Technologies
- Participated in Vedic Vision Hackathon as Full Stack Developer
